KIRAN RATHOD

Aspiring Software Engineer | QA Engineer | SDET | 2026 Graduate
Phone: +91-8431275632 | **Email:** kiranrathod4299@gmail.com | **GitHub:** GitHub.com | **LinkedIn:** LinkedIn.com

Career Objective

Aspiring QA Engineer / SDET pursuing a Bachelor of Technology in Computer Science and Business Systems, with hands-on fintech experience in manual and automation testing, API testing, and performance testing. Strong knowledge of STLC, defect management, and Quality Assurance practices, with practical exposure to Playwright, k6, CI/CD pipelines, and AI-assisted test automation.

Technical Skills

QA & Testing: Manual Testing, Functional Testing, Regression Testing, Smoke & Sanity Testing, End-to-End Testing, API Testing, Performance Testing, Test Case Design, Defect Life Cycle
Automation & Programming: Python, JavaScript, TypeScript, SQL, Playwright, Selenium, k6, REST API Concepts, Webhooks, JSON, Object-Oriented Programming, Networking
Tools & Platforms: Postman, Jira, Git, GitHub, CI/CD Pipelines, GitHub Actions, Linux/Bash, Docker, FastAPI, Prometheus, Grafana, MLflow, MCP, Claude
Methodologies: Agile/Scrum, SDLC, STLC
Soft Skills: Leadership, Problem-solving, Teamwork, Adaptability, Time Management, Communication, Result Driven, Attention to Detail

Experience

SDET | OpenFX (Fintech – Cross-Border Payments) | Contract | 3 Months

- Integrated **MCP-based AI testing agents** (Planner, Generator, Healer) and a **CI agent** to automate test planning, test script generation, and self-healing of failing tests
- Integrated **k6 for performance and load testing**, benchmarking and tracking **quote pricing API latency**
- Created and maintained automated **regression and sanity suites**, ensuring release stability across pricing and quote workflows
- Performed **SQL-based backend validation** to verify **dynamic pricing** logic, including **BRL onshore/offshore FX pricing**
- Implemented a **lightweight automation reporting** tool summarizing local runs and **CI pipeline failures** for faster debugging and triage
- Tested **webhook events and REST APIs**, validating request/response payloads, status codes, and event triggers
- Delivered **end-to-end frontend and backend testing** for multiple features spanning pricing, quotes, and UI changes

Internships

Software Test Engineer Intern | Test Yantra Pvt Ltd | Jan 2026 – Apr 2026

- Designed and executed test cases for end-to-end e-commerce workflows (browsing, cart, checkout) through **functional, integration, and system testing**
- Managed defects across the full **defect life cycle** and conducted **smoke, sanity, and exploratory testing** in collaboration with developers

Projects

Predictive Maintenance with MLOps | Python, MLflow, FastAPI, Prometheus, Grafana

- Built an end-to-end **RUL prediction pipeline** with **FastAPI REST APIs** for real-time and batch inference
- Implemented a **CI/CD pipeline on AWS** using **Docker and GitHub Actions**, with **Prometheus & Grafana** monitoring for metrics and alerts

RecruitR – AI Resume Analyzer with Local LLM and RAG | Python, LangChain, Ollama, Streamlit, FAISS

- Built a scalable resume analysis system using **LangChain RAG**, **FAISS** vector DB, and semantic embeddings, with parallel processing via ThreadPoolExecutor
- Automated **ATS compliance analysis** and reporting with Pandas, ReportLab, and Plotly, supporting dual LLMs (Llama + GPT)

Education

Visvesvaraya Technological University, Belagavi — B.Tech., Computer Science & Business Systems | 2022–2026 | CGPA: 8.3
Diamond PU College, Bhalki — Pre-University Course (PUC) | 2020–2022 | Percentage: 85.83%
Nalanda High School, Aurad B — SSLC | 2018–2020 | Percentage: 75.2%

Certificates

- Claude Code in Action, Anthropic
- Full Stack Software Testing with AI, Qspiders, Bengaluru
- Machine Learning Essentials for Business, AWS
- Introduction to Python, Kaggle

Achievements

- **Winner, Vencer Hackathon**, AITM Belagavi (April 2025): Secured 1st place, outperforming 20+ competing teams
- **Code Prahari**, SGBIT Belagavi (March 2024): Achieved 3rd place among 100+ participants in a competitive coding challenge
